

# Training Notification Form, IIT Delhi

## Company Overview

**Name:** LST Capital

**Website:** [www.lstcapital.in](http://www.lstcapital.in)

**Company Type:** Analytics

**Description:** At LST Capital, we're all about the magic that happens when finance marries technology. Imagine a bustling hub of sharp minds—math wizards, coding ninjas, finance gurus—all working together, fueled by the thrill of cracking market complexities wide open with state-of-the-art quant strategies. Our story began with a simple, bold idea: to shake up traditional investing with something smarter, faster, and poised for tomorrow. And it's not just about the numbers; it's about the people behind them. We're a medley of thinkers, innovators, and, dare we say, revolutionaries, all contributing to this exciting narrative of turning market whispers into lucrative insights. But here's the thing — we're not just in it for the short game. We're here to sculpt a future where our sophisticated models and ethical practices redefine success, not just for us, but for everyone who joins us on this exhilarating journey. At LST Capital, your growth is our triumph, and together, we're not just observers; we're makers of a vibrant financial future.

## Project Details

**Designation:** Data Analyst Intern

**Type:** Analytics

**Location:** Chennai, India

**Project Details:** We are a leading digital bank that offers innovative financial products and services designed to help our customers save and manage their finances efficiently. As we continue to grow and expand our digital footprint, we are seeking a talented Data Analyst Intern to join our dynamic team.

Responsibilities:

- Extract, process, and analyze large datasets to identify trends, anomalies, and patterns that can drive business decisions.
- Collaborate with cross-functional teams to understand data needs and deliver actionable insights.
- Develop and maintain dashboards, reports, and visualizations to communicate findings to stakeholders.
- Implement data quality checks and validation to ensure accuracy and consistency in data.
- Utilize statistical methods to conduct analyses, hypothesis testing, and predictive modeling.
- Stay updated with the latest tools and techniques in data analytics and visualization.
- Assist in the design and execution of A/B tests to drive product and process improvements.

#### Qualifications:

- Bachelor's or Master's degree in Data Science, Statistics, Computer Science, or a related field from an IIT/NIT/ISI/BITS or other such tier 1 universities.
- Proficiency in SQL and experience with data visualization tools such as Tableau, Power BI, or Looker.
- Strong analytical skills with the ability to collect, organize, and disseminate - significant amounts of information with attention to detail and accuracy.
- Familiarity with programming languages such as Python or R for data manipulation and analysis.
- Excellent communication skills, with the ability to present complex data findings in a clear and concise manner.
- A curious mindset with a passion for problem-solving and a drive to continuously learn.

#### About Us:

We are a different kind of bank, where your imagination sets the limit. Our platform offers fast, easy, and secure transactions, ensuring that our customers get the best out of their banking experience. With our innovative products, we aim to redefine the banking relationship and take it to a whole new level.
