## Project Details

<b>Designation:</b>	Internship Data Scientist
<b>Type:</b>	Information Technology
<b>Location:</b>	Full remote
<b>Project Details:</b>	<p><b>【Internship Project】</b></p> <p>IBY solution can analyse online communication. By using the analysed results such as facial emotions, voice features, transcripts, body postures, engagement, etc, we need to solve business issues of clients.</p> <p>Intern themes are separated into two types. One type is research projects that improve the existing IBY AI engine to get basic multimodal features. Another type is industrial projects that find valuable insights by using both analysed results by IBY AI and business transaction data that are shared by our clients.</p> <p>An example of a research project is developing lightweight facial emotion analysis models that are robust to low resolution.</p> <p>Few examples of industrial projects are to analyse correlation between mental health patients' conditions and analysis results of IBY AI, and to analyse correlation between satisfaction scores of employees at enterprise companies and analysed results of IBY AI.</p> <p><b>【Skills】</b></p> <p>Must have skills:</p> <ul style="list-style-type: none"><li>-Machine learning experience in computer vision.</li><li>-Data engineering (efficient processing of big data) experience.</li><li>-Basic information science knowledge (TCP/IP, OS, system architecture).</li><li>-Independent problem solving abilities.</li><li>-Leadership and professional skills (commitment to task execution, self and quick learner).</li></ul> <p>Nice to have skills:</p> <ul style="list-style-type: none"><li>-Web development experience, Application development experience.</li></ul>

# Stipend Details
