

# Training Notification Form, IIT Delhi

## Company Overview

<b>Name:</b>	LinkedIn
<b>Website:</b>	<a href="https://www.linkedin.com">linkedin.com</a>
<b>Company Type:</b>	Information Technology
<b>Description:</b>	LinkedIn is a business and employment-focused social media platform that works through websites and mobile apps.

## Project Details

<b>Designation:</b>	Software Engineering Intern
<b>Type:</b>	Information Technology
<b>Location:</b>	Bengaluru

**Project Details:** LinkedIn was built to help professionals achieve more in their careers, and every day millions of people use our products to make connections, discover opportunities, and gain insights. Our global reach means we get to make a direct impact on the world's workforce in ways no other company can. We're much more than a digital resume – we transform lives through innovative products and technology. Searching for your dream job? At LinkedIn, we strive to help our employees find passion and purpose. Join us in changing the way the world works.

Software Engineering interns at LinkedIn work on advanced information-retrieval algorithms, massive scalability infrastructure and storage solutions, and large-scale applications for users on web and mobile devices. LinkedIn is looking for a variety of interns who want to learn, grow and work with some of the brightest technical talent in the world. We have a top-notch summer intern program for where you would work on real-life projects very important to the company. Come check us out!

This role, due to the nature of the work of being completed or the equipment used on site, requires in-office presence on a full time basis. This helps to ensure you are set up for success based on the job responsibilities.

Responsibilities:

1. Scale distributed applications, make architectural trade-offs applying synchronous and asynchronous design patterns, write code, and deliver with speediness and quality.
2. Develop multi-tier scalable, high-volume performing, and reliable user-centric applications that operate 24x7.
3. Produce high quality software that is unit tested, code reviewed, and checked in regularly for continuous integration.

Basic Qualification

1. Currently pursuing Bachelors in CE or CS, graduating by 2025
2. Experience in software design, development, and algorithm related solutions

Preferred Qualifications:

1. Programming experience in Java, C/C++ and C#
2. Object oriented skills
3. Experience in data structures, algorithms, and software design
4. Background in computer science

Suggested Skills:

- Data Structures & Algorithms
- Software Design
- Java
