# Training Notification Form, IIT Delhi

### **Company Overview**

Name: Mastercard India Services Private Limited

Website: <a href="https://www.mastercard.co.in/en-in.html">https://www.mastercard.co.in/en-in.html</a>

Company Type: Analytics

Description: Mastercard Inc. is an American multinational financial services corporation

headquartered in the Mastercard International Global Headquarters in Purchase,

New York.

### **Project Details**

**Designation:** Intern

Type: Information Technology

**Location:** Gurgaon

Project Details:

Our Vision

Al Garage is responsible for establishing Mastercard as an Al powerhouse. Al will be leveraged and implemented at scale within Mastercard providing a foundational, competitive advantage for the future. All internal processes, all products and services will be enabled by Al continuously advancing our value proposition, consumer experience, and efficiency.

#### Opportunity

Join Mastercard's Al Garage @ Gurgaon, a newly created strategic business unit executing on identified use cases for product optimization and operational efficiency securing Mastercard's competitive advantage through all things Al. The Al professional will be responsible for the creative application and execution of Al use cases, working collaboratively with other Al professionals and business stakeholders to effectively drive the Al mandate.

#### Role

- Develop AI/ML solutions/applications leveraging the latest industry and academic advancements.
- Strong theoretical understanding of statistical techniques, machine learning algorithms and their mathematical underpinnings.
- Interpret and explain model predictions and insights to varied audiences.
- Thrive in an unstructured environment, working autonomously on a strong team to find opportunity and deliver business impact.
- Leverage open and closed source technologies to solve business problems.
- Ability to work cross-functionally, and across borders drawing on a broader team of colleagues to effectively execute the Al agenda.
- Partner with technical teams to implement developed solutions/applications in production environment.
- Support a learning culture continuously advancing Al capabilities.

#### All About You:

#### Experience

- Demonstrated passion for AI competing in sponsored challenges such as Kaggle.
- Previous experience with or exposure to:
- o Deep Learning algorithm techniques, open-source tools and technologies, statistical tools, and programming environments such as Python, R, and SQL.
- o Big Data platforms such as Hadoop, Hive, Spark, GPU Clusters for deep learning.
- o Classical Machine Learning Algorithms like Logistic Regression, Decision trees, Clustering (K means, Hierarchical and Self-organizing Maps), TSNE, PCA, Bayesian models, Time Series ARIMA/ARMA, Recommender Systems Collaborative Filtering, FPMC, FISM, Fossil.
- o Deep Learning algorithm techniques like Random Forest, GBM, KNN, SVM, Bayesian, Text Mining techniques, Multilayer Perceptron, Neural Networks Feedforward,
- o CNN, LSTM's GRU's is a plus. Optimization techniques Activity regularization (L1 and L2), Adam, Adagrad, Adadelta concepts; Cost Functions in Neural Nets Contrastive Loss, Hinge Loss, Binary Cross entropy, Categorical Cross entropy; developed applications in KRR, NLP, Speech and Image processing.
- o Deep Learning frameworks for Production Systems like Tensorflow, Keras (for RPD and neural net architecture evaluation), PyTorch and Xgboost, Caffe, and Theono is a plus.

#### Effectiveness

- Effective at managing and validating assumptions with key stakeholders in compressed timeframes, without hampering development momentum.
- Capable of navigating a complex organization in a relentless pursuit of answers and clarity.
- Enthusiasm for Data Sciences embracing the creative application of Al techniques to improve an organization's effectiveness.
- Ability to understand technical system architecture and overarching function along with interdependency elements, as well as anticipate challenges for immediate remediation.
- Ability to unpack complex problems into addressable segments and evaluate Al methods most applicable to addressing the segment.
- Incredible attention to detail and focus instilling confidence without qualification in developed solutions.

#### **Core Capabilities**

- Strong written and oral communication skills
- Strong project management skill

### Stipend Details

Stipend: 75,000 INR Per Month

Accommodation: No

Travel Expenses: No

Perks / Bonus: NA

### **Selection Process**

Resume Shortlist:

Yes

**Written Test:** 

No

Online Test:

Yes

Group

Yes

Discussion:

**Personal** 

Yes

Interview:

No. of Offers: 5

Selection

65% and above throughout 10th, 12th and Graduation

**Process:** 

## Eligibility

Diversity Recruiting:

No

Eligible Years:

Graduating in 2025 (Pre-Final Year Students) - B.Tech / Dual / Master's

Eligible

**Departments:** 

B.Tech in Computer Science & Engineering, B.Tech in Electrical Engineering, B.Tech in Electrical Engineering (Power and Automation), B.Tech in Mathematics & Computing, B.Tech and M.Tech in Computer Science & Engineering, B.Tech

and M.Tech in Mathematics & Computing
