Training Notification Form, IIT Delhi

Company Overview

Name:	CompilerAI Labs Private Limited
Website:	https://compiler.ai
Company Type:	Core (Technical)
Description:	We are a deep-technology startup in the space of compiler-based program verification for mission-critical, security-critical, and safety-critical software needs. The market for such critical software is expanding rapidly in the areas of defence, aerospace, automobile, industrial automation, critical computing infrastructure, etc. Our verification tools are based on many years of research and development. One of our initial customers is the Indian Air Force.

Project Details

Designation:	Verification Engineer
Type:	Core (Technical)
Location:	IIT Delhi
Project Details:	Work on improving the performance and reliability and usability of a translation validator and static code analyzer. A translation validator checks that the optimized executable code generated by an optimizing compiler is equivalent to the original source code.
